The CDC has posted the 2021 WISQARS injury fatality data.

- From WISQARS we have updated our prior trend slides now through 2021 for youth suicide data and produced the following trend charts, by age and gender.

The slides that follow are meant for public use.

- No permissions are required.
- The graphics are developed from publicly available federal data sources.
- At the bottom of each slide, the data source is given, and a link is provided for those seeking more information.
US Child and Youth Suicide Deaths by Age Group, Genders Combined, 1981-2021

US Child and Youth Suicide Deaths by Age Group, **Females**, 1981-2021
