

Youth Tobacco Cessation: Considerations for Clinicians

Types of Tobacco Products

This document serves as a visual guide to several types of commercial tobacco products, including combustible tobacco (eg, cigarettes, cigarillos, hookah), electronic tobacco products (eg, e-cigarettes and vaping devices, heated tobacco products), and smokeless tobacco (eg, chewing tobacco, snuff). This is not intended to be a comprehensive list of all tobacco products. When we reference tobacco, we are referring to commercial tobacco, and not the sacred and traditional use of tobacco by some Native American communities.
