I2062 - Dos and Don'ts of Disclosing Preventable Adverse Events and Medical Errors

This session will provide an overview of the incidence of preventable adverse events and medical errors. Faculty will describe a tool to help prepare for disclosing errors and providing apologies. Simulated conversations will demonstrate suboptimal and optimal ways to share information. Attendees will have an opportunity to practice disclosing errors through role play, with feedback provided.

Faculty:
Karen Santucci, MD, FAAP
Laura Sigman, MD, JD, FAAP

F3103 - Fired for Using Facebook: Law, Ethics, and Professionalism in Social Media

Faculty will discuss the risks and benefits of social media use by pediatricians drawing on real cases. The session will focus on professional liability, including the Health Insurance Portability and Accountability Act; privacy and boundary issues; electronic distraction; and videotaping. Ways to minimize liability risks will be explored, including a review of the American Medical Association Ethics Opinion on Professionalism in the Use of Social Media.

Faculty:
Jonathan Fanaroff, MD, JD, FAAP

I5040 Pediatric Malpractice Lessons Learned: Mistakes You Can Avoid

Faculty will review malpractice litigation to highlight pediatricians’ exposure in a rapidly changing health care environment where they are expected to provide more care at each visit. New trends in pediatric malpractices claims will be presented in a practical context followed by a participative learning session analyzing cases and how to apply lessons learned from them.

Faculty:
Richard L. Oken, MD, FAAP
