Training pediatricians in advocacy leadership skills for community engagement and policy strategies to reduce food insecurity in their communities.
Notes From the Field
Impact stories from participants

“The sessions set a framework for my practice to connect and work with community partners to improve the health of our patients.”

“Learned I do not have to “fix” everything but rather listen to the needs of partners to learn how I can best assist them in their work.”

“I now have tangible ways to address legislators in both big and small ponds.”

“I will start collecting my own stories about advocacy work so I can use them in the future to advocate locally.”
