**Webinar #2: Diagnosis, Neuromuscular, Rehabilitation, Orthopaedic, and Surgical Management (the muscle webinar) | Tuesday, May 14, 2019 | 12-1pm CT**

**Title:** Duchenne Muscular Dystrophy: Diagnosis, Neuromuscular, Rehabilitation, Orthopaedic, and Surgical Management (the muscle webinar)

**Best for:** General pediatricians, family physicians, nurse practitioners (i.e. general pediatric care providers)

**Also recommended for:** muscular dystrophy clinic directors, neuromuscular providers including specialists and allied health professionals

**Moderator:** Robin Geiger, DNP, FNP-BC, NP-C

**Faculty:** Fawn Leigh, MD (diagnosis and neuromuscular), Laura Case, PT, DPT, MS, PCS, C/NDT (rehab), and Dennis Matthews, MD (Orthopaedic and Surgical Management).

**Webinar Outline:** Approach webinar from chronic disease management framework; diagnosis, care coordination, corticosteroids, emerging therapies, tracking disease progression, interventions, transitions for relevant specialties.

**Webinar #3: Bone Health, Endocrine, gastrointestinal and nutritional management (the growth webinar) | *Wednesday, May 29, 2019 | 12-1:15pm CT**

**Title:** Duchenne Muscular Dystrophy: Bone Health, Endocrine, gastrointestinal and nutritional management (the growth webinar)

**Best for:** General pediatricians, family physicians, nurse practitioners (i.e. general pediatric care providers)

**Also recommended for:** muscular dystrophy clinic directors, neuromuscular providers including specialists and allied health professionals

**Moderator:** Garey Noritz, MD, FAAP, FACP

**Faculty:** Leanne Ward, MD, FRCPc (endocrine and bone health), David Brumbaugh, MD, MSCS, FAAP (GI), and Laura Watne, MS, RD, CSP (nutrition).

**Webinar Outline:** Approach webinar from chronic disease management framework: bone health, growth, pubertal development, GI, nutrition, transitions for relevant specialties.
Webinar #4: Respiratory and Cardiac | Tuesday, June 11, 2019 | 12-1pm CT
Title: Duchenne Muscular Dystrophy: Respiratory and Cardiac
Best for: General pediatricians, family physicians, nurse practitioners (i.e. general pediatric care providers)
Also recommended for: muscular dystrophy clinic directors, neuromuscular providers including specialists and allied health professionals
Moderator: TBD
Faculty: Dan Sheehan, MD, PhD (respiratory) and Linda Cripe, MD (cardiac)
Webinar Outline: Approach webinar from chronic disease management framework for each specialty, care coordination and transitions.

Webinar #5: Psychosocial and Transitions | Tuesday, June 25, 2019 | 12-1pm CT
Title: Duchenne Muscular Dystrophy: Psychosocial and Transitions
Best for: General pediatricians, family physicians, nurse practitioners (i.e. general pediatric care providers)
Also recommended for: muscular dystrophy clinic directors, neuromuscular providers including specialists and allied health professionals
Moderator: Timothy Lotze, MD, FAAP
Faculty: Molly Colvin, PhD (psychosocial) and Christina Trout, RN, MSN (transitions)
Webinar Outline: Approach webinar from chronic disease management framework for each specialty, care coordination and transitions.
