AAP State Pediatric Preparedness Learning Collaborative Virtual Meeting #4

Monday, February 24, 2020
3:00pm ET/2:00 pm CT
WELCOME AND OBJECTIVES

• Goals of the Learning Collaborative include:
  – Connecting pediatric and public health partners.
  – Determining what types of education are needed to support improved pediatric preparedness at the state-level.
  – Identifying criteria/benchmarks to assess and improve state pediatric preparedness.
  – Expanding efforts through state or regional pediatric teams or discussions.

• Since H1N1, challenges in pediatric/public health collaborations continue. During this Learning Collaborative, we will hear perspectives from 2 public health leaders who are also oversee CDC PHEP and other relevant federally-funded projects. They will share their experience in pediatric preparedness.

• Hopefully, discussions will reveal new opportunities!
Oregon Public Health Division

- Lead agency for Emergency Support Function 8, Health and Medical
- Administers 2 cooperative agreements:
  - Public Health Emergency Preparedness Cooperative Agreement (CDC) = PHEP
  - Hospital (Healthcare) Preparedness Program Cooperative Agreement (ASPR) = HPP
- Subawardees:
  - 33 local public health authorities
  - 9 federally recognized Tribes
**Collaboration Opportunities**

- Identify populations with access and functional needs
- Develop or expand child-focused partnerships
- Conduct inclusive risk planning
- Pediatric surge planning (healthcare coalitions)
- Collaborate with EMSC (FYI: EMSC state partnership grantees are required to have a pediatrician on the program’s advisory council)
- Identify and consult with subject matter experts
- Reunification planning

PCH AND U OF U COMPLEX – EARTHQUAKE RISKS
THREATS, RISKS, AND HAZARDS
CDC/ORAU-PCH-UDOH 2014 Workshop

- July 29-31, 2014, in person stakeholder workshop
- CDC-ORAU, State of Utah, and Primary Children’s Hospital collaborative effort to develop and host a workshop addressing health and medical response for pediatric populations in disasters and emergency events.
- Two pediatric medical surge events were processed – public health emergency with notice (pandemic) and no-notice event (earthquake).
- GOAL—Advancing coordination and planning between the pediatric hospital and general healthcare systems, incorporating public health, emergency management, and other community partners, to address the delivery of healthcare in a pediatric surge event.
Include pediatric providers in community disaster exercises
CDC/ORAU-PCH-UDOH 2014 WORKSHOP

Include Pediatric Section in Crisis Standards of Care Guidance

Pediatric Triage
Pediatric Assessment Triangle
Welcome to the Western Regional Alliance for Pediatric Emergency Management (WRAP-EM) is a program funded by the U.S. Department of Health and Human Services Office of the Assistant Secretary for Preparedness and Response (ASPR) for innovative research in pediatric emergency management.

The Western Regional Alliance for Pediatric Emergency Management receives $3 million federal grant to establish a pediatric disaster care center of excellence.

U.S. Department of Health & Human Services (HHS) has awarded The Western Regional Alliance for Pediatric Emergency Management (WRAP-EM), led by a team at UCSF Benioff Children's Hospitals, a $3 million grant to develop one of two Pediatric Disaster Care Centers of Excellence (COE) in the country.
Discussion: What Can we Learn from Each Other?

- Which states have strategies that work well?
- Any models?
- How to sustain partnerships when there isn’t an active emergency?
- What about joint exercise planning?
**Next Steps**

- AAP will send out a proposed final state pediatric preparedness action plan/checklist to seek input from you!
- Watch for a calendar appointment to save the date for the 5th and final Learning Collaborative virtual meeting to wrap things up from Breanna Smith (bsmith@aap.org).
- After the final meeting, you will receive a follow-up assessment.
