Pediatric Palliative Care American Academy of Pediatrics
PPCAAP Listserv Guidelines

- Announcements related to employment opportunities and employment seeking may not be posted unless first posted on PedJobs: https://jobs.pedjobs.org/employers/. The Pedjobs posting may then be posted to the listserv.
- If you intend to reply directly to the sender, please ensure the PPCAAP@listserv.aap.org is not in “To:” line of your email. Below the subject line of the email there is a line that reads, “ppcaap PPCAAP@LISTSERV.AAP.ORG; on behalf of SENDER NAME, SENDER EMAIL.” Please consider using the sender email found there to reply directly to the sender when replying to the group is not beneficial. Do not send messages that are intended for individuals to the entire list (e.g., thanks, call me)
- This listserv is semi-moderated, which means messages are approved and released by the AAP before being sent to listserv recipients. As a result, you may see a delay in messages going out to the listserv for any messages that are sent outside of business hours.
- Email messages that contain content from another person’s email message that was not shared with the listserv will not be authorized.
- Please do not send out requests for research surveys or research studies through the LISTSERV® e-mail list.
- Remember, safeguarding confidentiality is vital. When asking for clinical guidance on a particular case, please do not share information that might violate HIPAA either directly or inadvertently. Beyond not including any HIPAA-specified personal information, please omit any details that are not pertinent to the case. Be mindful not to share information that may allow someone to identify a patient, family member or a provider who does not wish to be identified.
- Commercial messages may not be posted.
- Email attachments are permitted, however, please do not distribute any materials or information protected by copyright without permission of the copyright owner. Such permission should be noted in your message when it has been obtained. Please also be mindful of the size of any attachments you are sending to the list.
- Use caution when discussing specific products. Please note that individual posters are subject to libel, slander, and antitrust laws.
- Ensure that the subject line of your email concisely specifies the topic of your post. If the discussion has drifted from the original subject line, please revise the subject line.
- Please do not send administrative requests to the list. For administrative issues, such as leaving the group or changing email addresses, please send an e-mail to ppc@aap.org.
