Scientific Articles Archive

Below you will find a list of HBS-related publications from 2016 and older.

Cost analysis of large-scale implementation of the 'Helping Babies Breathe' newborn resuscitation-training program in Tanzania

S. Chaudhury et al., BMC Health Services Research, December 2016

A pilot program of knowledge translation and implementation for newborn resuscitation using US Peace Corps Volunteers in rural Madagascar

Kristin Close et al., Globalization and Health, November 2016

Helping Babies Breathe (HBB) training: What happens to knowledge and skills overtime?

A. Bang et al., BMC Health Services Research, November 2016

Neonatal resuscitation in low-resource settings

S. Berkelhamer et al., Clin Perinatal, September 2016

Provider experiences with the large-scale Helping Babies Breathe' training programme in Tanzania

K. Isangula et al., Paediatrics and International Child Health, September 2016

Evaluating newborn care skills among trained birth attendants in a resource-limited setting

M. Kassick et al., International Journal of Gynecology and Obstetrics, August 2016

Newborn resuscitation training in resource-limited settings: A systematic literature review

J. Reisman et al., Pediatrics, August 2016

Reducing Perinatal Mortality in Nepal Using Helping Babies Breathe

Pediatrics, June 2016

Skills retention in Sudanese village midwives 1 year following Helping Babies Breathe training

A. Arabi et al., Archives of Disease in Childhood, January 2016

Validation of a novel tool for assessing newborn resuscitation skills among birth attendants trained by the 'Helping Babies Breathe' program

J. Reisman et al., International Journal of Gynecology and Obstetrics, November 2015

Educational outcomes of Helping Babies Breathe training at a community hospital in Honduras

T. Seto et al, Perspect Med Educ, October 2015

A new commitment to newborn survival

S. Niermeyer et al., Pediatrics, January 2015

Cost-effectiveness of the "Helping Babies Breathe" program in a missionary hospital in rural Tanzania

C. Vossius et al., PLOS ONE, July 2014

Beyond newborn survival: the world you are born into determines your risk of disability-free survival

J. Lawn et al., Pediatric Research, December 2013

Resuscitation in resource-limited settings

H. Ersdal and N. Singhal, Seminars in Fetal & Neonatal Medicine, December 2013

<u>Helping Babies Breathe' training in sub-Saharan Africa: educational impact and learner impressions</u>

R. Hoban et al., Journal of Tropical Pediatrics, June 2013

Newborn Mortality and Fresh Stillbirth Rates in Tanzania After Helping Babies Breathe Training Pediatrics, February 2013

Stillbirth and newborn mortality in India after Helping Babies Breathetraining

S. Goudar et al., Pediatrics, February 2013

Addressing high infant mortality in the developing world: a glimmer of hope

J. Kattwinkel, Pediatrics, February 2013

Appropriate interventions to reduce perinatal mortality and morbidity in low-resourced settings

H. Ersdal, PhD Thesis, Stavanger University Hospital, 2012

Implementing a simplified neonatal resuscitation protocol – helping babies breathe at birth (HBB) – at a tertiary level hospital in Nepal for an increased perinatal survival

A. KC et al., BMC Pediatrics, October 2012

Intermittent detection of fetal heart rate abnormalities identify infants at greatest risk for fresh stillbirths, birth asphyxia, neonatal resuscitation, and early neonatal deaths in a limited-resource setting: a prospective descriptive observational study at Haydom Lutheran Hospital

H. Ersdal et al., Neonatology, August 2012

An introduction to Helping Babies Breathe: the "Golden Minute" is here for South African newborn babies

C. Van Heerden, Professional Nursing Today, June 2012

Birth asphyxia: a major cause of early neonatal mortality in a Tanzanian rural hospital

H. Ersdal, Pediatrics, April 2012

Helping Babies Breathe: Global neonatal resuscitation program development and formative educational evaluation

N. Singhal et al., Resuscitation, January 2012

Early initiation of basic resuscitation interventions including face mask ventilation may reduce birth asphyxia related mortality in low-income countries: a prospective descriptive observational study

H. Ersdal et al., Resuscitation, December 2011

Neonatal nursing and Helping Babies Breathe: an effective intervention to decrease global neonatal mortality

G. Little et al., Newborn & Infant Nursing Reviews, June 2011
