

Resident CATCH Application –

Pediatric trainees can determine their eligibility for applying for this community-focused grant by reviewing the following question.

Are you currently a pediatric trainee with at least 2 years remaining in your training? *(Eligible trainees include PGY1, PGY2, PGY3 with a chief year, or a trainee in a combined program with 2 years of training remaining.)*

A. Yes – Please read the Resident Call for Proposals for details.

B. No – You can apply as a co-applicant but will need to partner with a trainee that fits that criteria in order to apply for a Resident CATCH grant. **Primary applicant must have 1 year of training remaining at the time the grant would begin.**

All individuals should contact your [Chapter CATCH Facilitators](#), [District Resident Liaisons](#) or [CATCH staff](#) for technical assistance in the early stages of preparing an application.
