

AAP Traumatic Brain Injury ECHO

The American Academy of Pediatrics is recruiting up to 25 primary care practices in rural settings to join a 6-month learning collaborative aimed to improve access to quality healthcare for children and youth with traumatic brain injury (TBI).

Practices will engage in the ECHO (Extension for Community Healthcare Outcomes) model™, a telementoring platform that leverages video conference technology to connect experts with primary care teams in local communities, fostering an “all teach, all learn” approach.

Benefits of participating:

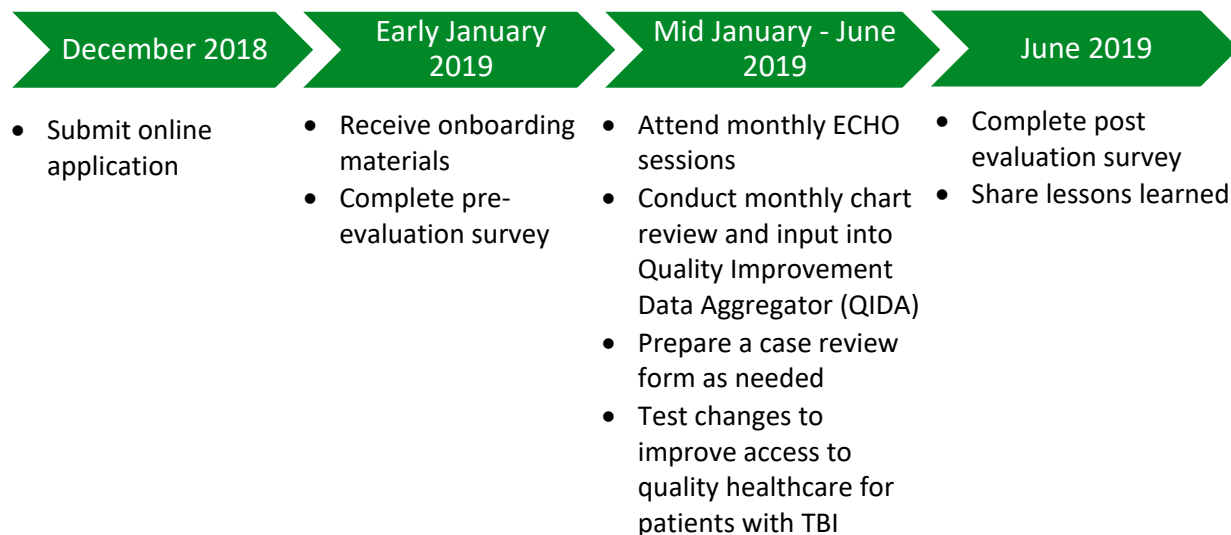

- ✓ Improve access to quality care for patients with TBI
- ✓ Increase knowledge regarding best practices for diagnosing and managing all severities of TBI
- ✓ Learn new quality improvement (QI) methods and track improvement through monthly data collection to achieve desired outcomes in your practice
- ✓ Network and problem solve with others
- ✓ *Participating pediatricians will have the opportunity to earn American Board of Pediatrics Part 4 Maintenance of Certification (MOC) credit (pending approval) as well as continuing education credits*

Who should apply:

Practices providing primary care who:

- ✓ Want to improve the quality of care for their patients who have experienced TBI
- ✓ Can assemble a team of members that may include:
 - A primary care physician
 - A nurse
 - An additional team member such as front office person, practice manager, or care coordinator
- ✓ Provide primary care to patients 0-25 years of age with TBI symptoms, such as dizziness, headache, confusion and/or fatigue

Timeline:

Interested?

Apply [online](#) by **December 10, 2018**.
