

a program to enhance the health & development of infants & children

Fetal Alcohol Spectrum Disorders Program

A program of the American Academy of Pediatrics in cooperation with the Centers for Disease Control & Prevention

Fetal Alcohol Spectrum Disorders Webinar Series

The American Academy of Pediatrics (AAP) is pleased to offer a series of educational webinars on Fetal Alcohol Spectrum Disorders (FASD). Join us Fridays beginning March 24th through April 21st for webinar sessions on identifying and diagnosing conditions on the continuum of FASD, caring for children with an FASD, addressing stigma and bias related to prenatal alcohol exposure, and neurobehavioral disorder associated with prenatal alcohol exposure (ND-PAE). Trauma-informed approaches will also be covered. The webinars are open to all clinical personnel with practicing primary care clinicians strongly encouraged to attend. We look forward to seeing you! For more information about the series, please contact Rosa Arvizu, Program Coordinator, AAP FASD Program, at rarvizu@aap.org.

Session 1: Fetal Alcohol Spectrum Disorders: Screening, Assessment, and Diagnosis

Presenter: Prachi Shah, MD, FAAP

Brief Description: This webinar will focus on describing the diagnostic criteria for conditions along the continuum of FASD, understanding the differential diagnoses of FASD, recognizing the neurodevelopmental phenotype associated with prenatal alcohol exposure (PAE), and explaining the importance of assessing all patients for a history of PAE. Participants will be oriented to the diagnostic assessment, including the areas of the brain affected by PAE, and indications for referral. Faculty will review trauma-informed approaches and promotion of safe stable nurturing relationships for children and families living with FASD. This activity has been approved for 1.0 AMA PRA Category 1 Credit™ and 1.0 MOC points in the American Board of Pediatrics' (ABP) Maintenance of Certification (MOC) program.

Date/Time: Friday, March 24, 2023 (11:00am CT / 12:00pm ET)

Register: <https://bit.ly/2023FASDSESSION1>

Session 2: Treatment Across the Lifespan for Persons with FASD

Presenter: Yasmin Senturias, MD, FAAP

Brief Description: This webinar will provide primary care clinicians with the tools they need to coordinate care for children with FASD from infancy to young adulthood. The session will focus on identifying and managing neurobehavioral and medical concerns at different developmental stages. Participants will learn about medical, therapeutic, and pharmaceutical considerations. Faculty will present evidence-based interventions that are applicable to community-based primary care pediatricians. Trauma-informed approaches to building family resilience and working with the school system to access services will also be discussed. This activity has been approved for 1.0 AMA PRA Category 1 Credit™ and 1.0 MOC points in the American Board of Pediatrics' (ABP) Maintenance of Certification (MOC) program.

Date/Time: Friday, March 31, 2023 (11:00am CT / 12:00pm ET)

Register: <https://bit.ly/2023FASDSESSION2>

Session 3: Overcoming Social Attitudes as a Barrier to Early Identification of FASD

Presenters: Douglas Waite, MD, FAAP & Peggy Way (FASD Consultant and Parent Partner)

Brief Description: This webinar will help define the role that social attitudes have in early identification of children with an FASD. Faculty will demonstrate how to address issues around stigma and bias in assessing for and delivering an FASD diagnosis and share lived experience to illustrate best practices in the pediatric medical home. Participants will learn the importance of screening for prenatal alcohol exposure and providing family-centered care as part of the pediatric medical home. Faculty will discuss the importance of an FASD diagnosis for treatment and interventions. This activity has been approved for 1.0 AMA PRA Category 1 Credit™ and 1.0 MOC points in the American Board of Pediatrics' (ABP) Maintenance of Certification (MOC) program.

Date/Time: Friday, April 7, 2023 (11:00am CT / 12:00pm ET)

Register: <https://bit.ly/2023FASDSESSION3>

Session 4: Neurobehavioral Disorder Associated with Prenatal Alcohol Exposure (ND-PAE)

Presenter: Renee Turchi, MD, FAAP

Brief Description: This webinar will focus on the factors in a patient's medical history and clinical presentation that may indicate the presence of Neurobehavioral Disorder Associated with Prenatal Alcohol Exposure (ND-PAE). Faculty will review the definition of ND-PAE from the 5th edition of the Diagnostic and Statistical Manual of Mental Disorders (DSM-5). Participants will learn about the three domains in which children with this disorder struggle with behavior and developmental tasks and how ND-PAE may present in clinic through the developmental stages. This activity has been approved for 1.0 AMA PRA Category 1 Credit™ and 1.0 MOC points in the American Board of Pediatrics' (ABP) Maintenance of Certification (MOC) program.

Date/Time: Friday, April 14, 2023 (11:00am CT / 12:00pm ET)

Register: <https://bit.ly/2023FASDSESSION4>

Session 5: FASD National Office Hours

Faculty: FASD Regional Education and Awareness Liaisons (REAL) Champions Network

Brief Description: Join the AAP for a national office hours session on FASD. Members of the AAP FASD Regional Education and Awareness Liaisons (REAL) Champions Network will share their expertise and answer questions regarding early identification, diagnosis, and care of children and families living with FASD. The AAP FASD REAL champions serve as advocates for change at the practice and health systems levels to improve health outcomes for children with an FASD. They also provide training and technical assistance within their respective regions educate on and raise awareness about FASD. This activity has been approved for 1.0 AMA PRA Category 1 Credit™.

Date/Time: Friday, April 21, 2023 (11:00am CT / 12:00pm ET)

Register: <https://bit.ly/2023FASDSESSION5>

Credit statements

- The American Academy of Pediatrics (AAP) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.
- The AAP designates this live activity for a maximum of 1.0 AMA PRA Category 1 Credit(s)[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
- This activity is acceptable for a maximum of 1.0 AAP credits. These credits can be applied toward the AAP CME/CPD Award available to Fellows and Candidate Members of the American Academy of Pediatrics.
- PAs may claim a maximum of 1.0 Category 1 credits for completing this activity. NCCPA accepts AMA PRA Category 1 Credit[™] from organizations accredited by ACCME or a recognized state medical society.

MOC Statement:

- Successful completion of this CME activity, which includes participation in the evaluation component, enables the learner to earn up to 1.0 MOC points in the American Board of Pediatrics' (ABP) Maintenance of Certification (MOC) program. It is the CME activity provider's responsibility to submit learner completion information to ACCME for the purpose of granting ABP MOC credit.

*Please note Session 5: FASD National Office Hours scheduled for Friday, April 21, 2023, is not eligible for MOC points and is only eligible for 1.0 AMA PRA Category 1 Credit[™].

If you miss the opportunity to join any of the webinar sessions, you can register and access the virtual course titled, *Fetal Alcohol Spectrum Disorders (FASD): Recognition and Management* at <https://shop.aap.org/fetal-alcohol-spectrum-disorders-recognition-and-management/>.

This project is supported by the supported by the U.S. Department of Health and Human Services, Centers for Disease Control and Prevention, cooperative agreement number NU38OT000282.
