Have a DEA License?
This applies to you!

As of June 27, 2023, all DEA-registered practitioners are required to attest to 8-hours of substance use training upon initial registration or renewal of their DEA license, as part of the MATE Act.

Goal of this new requirement: “Given the urgency of the nation’s overdose crisis, the importance of practitioners receiving training in substance use disorders (SUD) cannot be overstated. Incorporating training on SUD into routine healthcare will enable practitioners to screen more widely for substance use disorders, treat pain appropriately, prevent substance misuse, and engage people in life-saving interventions.”
— SAMHSA

Where do I even start? This is all new to me!
Check out the algorithm on page 2.

Where can I obtain training?
Any organization approved or accredited by the Assistant Secretary for Mental Health and Substance Use, the ACCME, or the CCEPR. This includes the American Academy of Pediatrics.

The training does not have to occur in one session. It can be cumulative across multiple sessions that equal 8 hours of training.
- Education available to take now.

How often do I need to meet this requirement?
This is a one-time requirement.

How will I report my training to meet this requirement?
There will be a check box on the online DEA registration form asking to affirm having completed the new training requirement.

What is the deadline?
The date of a practitioner’s next scheduled DEA registration submission—regardless of whether it is an initial registration or a renewal registration—on or after June 27, 2023.
Do you have a DEA License?

- **No, not yet**
  - Did your medical school include at least 8 hours of training on substance use and/or treatment of pain?
    - **Yes**
      - You’ve met the requirement
    - **No**
      - Have you graduated from medical school within 5 years of June 27, 2023?
        - **Yes**
          - Have you had any training in the past related to substance use and/or treatment of pain?
            - **Yes**
              - Great! Past relevant training counts toward meeting the requirement. The training does not have to occur in one session. It can be cumulative across multiple sessions that equal 8 hours of training. If you are still in need of some hours, [See page 3 for potential options.](page3)
            - **No**
              - The AAP has you covered! [See page 3 for potential options.](page3)
