

Neonatal Resuscitation Program®

Introducing the American Academy of Pediatrics Neonatal Resuscitation Program® 8th Edition

Prepared to save a life just beginning.

The Neonatal Resuscitation Program (NRP®) equips healthcare providers and teams with an evidence-based, effective approach for care of newborns.

New for the 8th Edition

Instructor-led and RQI® for NRP® delivery options available

Updates to 8th Edition to better meet the needs of healthcare professionals:

- Practice changes based on new science and educational efficiency
- Updated textbook and materials with new reader-friendly features, [available for pre-order now](#)
- New Learning Management System: the **NRP Learning Platform™** – hosting 8th Edition content for all NRP providers
- Two delivery options available: Instructor-led training or the new RQI® for NRP® (see page 2 for detailed information)

Two new levels of provider learning:

NRP Essentials (Lessons 1–4)

Includes skills through face-mask ventilation and laryngeal mask insertion.

NRP Advanced (Lessons 1–11)

Includes all resuscitation skills for term and preterm newborns.

New NRP Instructor Bundle

The new 8th Edition Instructor Bundle will launch in June 2021 on the new NRP Learning Platform. The 8th Edition curriculum includes the Instructor Course, Exam, and Instructor Toolkit. To maintain NRP Instructor status, instructors must:

- Teach or co-teach two provider courses during the two-year renewal period
- Review Instructor Course content
- Pass the NRP Instructor Exam
- Maintain Instructor Toolkit Access

PRE-ORDER & TRANSITION TIMELINE

April 1, 2021

- Pre-order courses from RQI Partners
- Pre-order textbook from AAP

June 2021

- NRP 8th Edition launch
- New NRP Learning Platform for 8th Edition

December 31, 2021

- All 7th Edition course activities must be complete

January 1, 2022

- 8th Edition materials are required for use

Introducing RQI for NRP

NRP now includes the innovative Resuscitation Quality Improvement® (RQI) learning method as an option for NRP Essentials.

Bringing together the latest science from the American Academy of Pediatrics with mastery learning and quality improvement technology from the American Heart Association and Laerdal Medical, all delivered via an on-site simulation station, healthcare providers are continuously improving and retaining skills.

NRP complements a full suite of curricula available through RQI including Healthcare Provider BLS, ALS, PALS and Responder.

An NRP Provider's Journey to Verified Competence in PPV Skills

RQI for NRP is available for NRP Essentials

Learners start with a preparation or entry assignment featuring True Adaptive™ learning – a personalized method tailored to individual knowledge and confidence levels. True Adaptive learning adjusts to the learner's competence and performance in real-time.

Each quarter, in a low-dose, high-frequency model, cognitive and skills sessions assess learner's recall, application, and practice of the NRP algorithm, positive pressure ventilation, and MR. SOPA.

Skills are performed at the RQI for NRP Simulation Station on-site. Cognitive activities are online in a responsive design that adjusts to the learner's various device formats.

Program Entry

Continuous Learning to Build Competence and Confidence

RQI for NRP provides:

- Self-directed learning with real-time feedback and debriefing to understand how to improve skills related to PPV
- Analytics for Administrators and Educators that provide visibility to learner performance and compliance at a macro and learner level
- Ease of administration and operational efficiencies that reduce administrative burden.

RQI FOR NRP TIMELINE

Feb. 18, 2021

- Quotes & sales available for RQI for NRP

June 1, 2021

- Implementations begin

July 1, 2021

- RQI for NRP (Essentials) is live
- RQI for NRP (Advanced Endorsement) is live
