Recruiting 101: Reaching Pediatricians

Many recruiters face challenges in recruiting board-certified, board-eligible pediatricians; pediatric hospitalists; and other boarded pediatric subspecialists. You may have a limited budget, be located in a remote area, or have ever-changing hiring priorities.

It is more important than ever to cut through the clutter of online job postings and drive traffic directly to your current physician openings. Make valuable connections with established pediatricians and pediatric trainees, from graduating residents to fellowship trainees. Learn how you can get direct access to early career and established practicing pediatricians who are members of the largest medical association of its kind, the American Academy of Pediatrics (AAP).

Recruiting Established Medical Professionals With Classified and Banner Advertising

General pediatricians are truly time pressed and often difficult to reach. Our AAP recruiting channels include classifieds in the print editions of our monthly member benefit publications like *Pediatrics*. Additional employer classified listings are included in the *Hospital Pediatrics* journal and display advertising is available in *Pediatrics in Review*, our monthly clinical review journal that is read from cover to cover by pediatricians in direct patient care and additionally printed and distributed monthly as 10,000 copies mailed to resident trainees.

Routine listings from the PedJobs.org job board are featured in the monthly editor-curated AAP Journal Insight emails with the option to place banner ads.

*Extend your reach to over 130,000 journal readers monthly.*

Recruiting Graduating Trainees: Where to Begin?

Many graduates begin their search on the basis of location or a specific position (e.g., academic, private practice, hybrid). If location is the primary determinant, then looking for a job may extend beyond looking at the classifieds. First-time candidates have many questions and considerations when it comes to outpatient and inpatient care, such as

- location
- hours of operation
- practice size
- office space
- record-keeping system
- company culture
- turnover rates
- room per provider
- vaccine policy
- visit-type schedules
- referral procedures
- laboratory and imaging access
- shift schedule
- after-hours call coverage
- tools provided
- cost of living
- community issues
- recreational activities

Many new candidates will have questions about reimbursement of interview/travel expenses, hiring timetable and notification, and opportunities for advancement or partnership, and, once an offer is made, seek further discussion about

- contract negotiations process
- salary
- incentives
- production bonuses
- standard medical benefits
- maternity/paternity leave
- PTO
- dental insurance
- life insurance
- 401(k) benefits
- loan repayment programs
- malpractice insurance
- CME and professional dues stipends
- moving expenses
- and more

Establish a direct line of communication with job seekers and particularly among new trainee graduates. Employers participating in the seasonal AAP Virtual Career Fair events enjoy the convenience of live text-based chatting with prospective candidates at dedicated times and receive a qualified lead list post-event with prospects who are actively looking for employment. An accompanying digital AAP Career Opportunities Guide is distributed to all AAP Members just before the Virtual Career Fair and showcases your open positions. The PedJobs.org job board offers job seekers the most up-to-date positions.
