

***Hospital Pediatrics* Assistant Editor for Statistics**

The Assistant Editor for Statistics is responsible for reviewing select manuscripts regarding the appropriateness of the statistical analyses and assists the Editor in Chief and Deputy Editor in maintaining high standards of the publication.

Responsibilities

- Review selected manuscripts with particular attention to the methods and results sections.
- Inform the Editor in Chief and Deputy Editor of statistical issues that arise during the year.
- Participate in Executive Editorial Board conference calls when invited.

Qualifications

- Advanced training (ideally a PhD) in statistics or a related field
- Current academic appointment
- Editorial experience preferred
- No conflict of interest with another medical publication. Members of the Executive Editorial Board may not serve as an editor at any level or on the Editorial Board for another peer-reviewed medical publication.
