Statistical Editor—Pediatrics Open Science

The Statistical Editor is a key member of the Executive Editorial Board, responsible for reviewing select manuscripts regarding the appropriateness and rigor of the statistical analyses and overall methodological approach, helping set and maintain high standards of publication.

Responsibilities

- Review selected manuscripts with particular attention to the methods, analyses, and results sections.
- Attend the *Pediatrics Open Science* Editorial Board meeting; prepare status reports on statistical issues that arise during the year for the Editor in Chief and Deputy Editor.
- Attend virtual *Pediatrics Open Science* Executive Editorial Board meetings approximately every other week.

Qualifications

- Advanced training (ideally a PhD) in statistics or a related field
- Current academic appointment
- Editorial experience preferred
- No conflict of interest with another medical publication.
- Members of the Executive Editorial Board may not serve as an editor at any level or on the Editorial Board for another peer-reviewed medical publication.
