# Faculty List

## John Bradley, MD, FAAP
Rady Children's Hospital/UCSD  
San Diego, California
- Pediatric Community Acquired Pneumonia
- MRSA
- New Antimicrobials
- How Antibiotic Dosing Drives Clinical Outcomes
- Influenza
- Pediatric Bone and Joint Infections

## Michael Brady, MD, FAAP
Nationwide Children’s Hospital  
Columbus, Ohio
- Immunizations
- Perinatal infections
- HIV infection
- Maternal immunizations to benefit mother and child
- Child care infections
- Emerging infections; Why are they emerging
- Influenza
- RSV infection
- Herpesvirus infections

## James Campbell, MD, MS, FAAP
University of Maryland Hospital for Children  
Baltimore, Maryland
- Immunizations: What’s the newest and what’s on the horizon?
- Pediatric research ethics and your IRB
- Responsible conduct of research in the international setting
- The Red Book: What’s new this edition?
- Human Papilloma Virus: Facts and alternative facts
- Enteroviruses: Polio endgame and AFM

## Penelope Dennehy, MD, FAAP
Hasbro Children's Hospital  
Providence, Rhode Island
- Vaccines
- Vaccine Preventable Diseases
- Tick borne Diseases
- Acute Gastroenteritis in the Post-Rotavirus Vaccine Era
- MRSA

## Kathryn Edwards, MD, FAAP
Monroe Carell, Jr. Children’s Hospital at Vanderbilt  
Nashville, Tennessee
- Vaccines
- Vaccine Hesitancy
- Vaccine Safety
- *Clostridium Difficile*
- Pneumonia
## American Academy of Pediatrics

### Section on Infectious Diseases

#### S. Michael Marcy Visiting Professor Program

| **Margaret Fisher, MD, FAAP**  
The Unterberg Children's Hospital at Monmouth Medical Center  
Long Branch, New Jersey | • Vaccines  
• Vaccine Preventable Diseases  
• Zoonosis  
• Tick borne Diseases  
• Antibiotic Use and Misuse |
| **Robert Frenck, MD, FAAP**  
Cincinnati Children's Hospital Medical Center  
Cincinnati, Ohio | • Enteric Diseases  
• Vaccines  
• MRSA  
• Norovirus  
• Pertussis  
• Human Subjects Protection (explaining the regulations, discussing IRBs, etc) |
| **Janet Gilsdorf, MD, FAAP**  
University of Michigan Medical Center  
Ann Arbor, Michigan | • Preventing *N. meningitidis* infections  
• New thoughts on *H. influenzae*  
• Asplenia and infections  
• Principles in using antibiotics  
• Combatting infectious diseases to decrease their global impact  
• Writing and publishing a scientific paper  
• Use of the laboratory in infectious diseases: EBV, GAS, MIC |
| **Mary Anne Jackson, MD, FAAP**  
Children’s Mercy Hospital  
Kansas City, Missouri | • Epidemiology of vaccine preventable infections  
• Keys to diagnosis and treatment of Kawasaki Disease  
• Judicious use of antibiotics for pediatric inpatients and outpatients  
• Consequences of antibiotic overuse (e.g., *Clostridium difficile* infection)  
• Strategies to reduce the incidence of hospital acquired infection  
• Vaccines/AAP *Red Book* update (Getting the Most Out of Your *Red Book*) |
American Academy of Pediatrics
Section on Infectious Diseases
S. Michael Marcy Visiting Professor Program

Faculty List

Sheldon Kaplan, MD, FAAP
Baylor College of Medicine/
Texas Children’s Hospital
Houston, Texas

- Impact of Pneumococcal Conjugate Vaccines in children
- *Staphylococcus aureus* infections in children
- Fever of Unknown Origin
- Bone and Joint infections
- Central Nervous System Infections

Sarah Long, MD, FAAP
St. Christopher's Hospital for Children
Philadelphia, Pennsylvania

- Changes in Infectious Diseases over Four Decades
- Pertussis: Persisting and Perplexing – Into Perpetuity?
- The Year’s Top Manuscripts in in Infectious Diseases for the Practitioner
- Infant Botulism
- AAP Red Book Vaccine Updates
- Pediatricians’ Challenging Calls to an Infectious Diseases Specialist
- Management of the Infant and Toddler with Fever without a Source
