

2023 Car Safety Seat Product Listing

When looking for a car seat for your child, you may be uncertain which features to look for based on your child's age, size and other needs. This list can help you sort through all the choices.

Notes:

*Weight is in pounds [lb] and height is in inches ["]

**Load legs and anti-rebound bars are features that can help absorb the energy of a crash. Load legs reduce forward rotation in the initial phase of a crash, and anti-rebound bars protect the child during the second phase of a crash from rearward rotation.

Rear-facing only seats

(Used rear-facing. All seats have a 5-point harness.)
