WHAT IS THE TRAUMA-INFORMED PEDIATRIC PROVIDER COURSE?
Many children and youth are exposed to trauma and adverse experiences that, if left unaddressed, can lead to toxic stress and other issues that affect lifelong health, wellness and development. This course will assist health care providers and those working in or with child-serving agencies to identify children and youth who have experienced trauma, to make wise, clear and full disclosure of their presentations and the risk of adverse outcomes that can be lessened if specific, tailored, mindful and well-considered by those who have been appropriately informed.

WHAT YOU SHOULD KNOW BEFORE YOU ATTEND:
> Addressing Childhood Adversity and Building Resilience
> Trauma-Informed Pediatric Provider Course
> American Academy of Pediatrics (AAP)

For more details on the MOC Part 2 points associated with the course, by successfully completing online pre- and post-course self-assessment tests. Instructions will be provided to access the online platform.

The AAP has the right to cancel a course due to unforeseen circumstances or to limit enrollments, should the number of registered attendees exceed capacity.

A limited number of guest rooms have been reserved, and they are assigned based on availability (first-come, first-served). Please be aware that the room blocks may be filled prior to March 8, 2018, in such a case, neither the group rate nor guest room availability can be guaranteed. The AAP, therefore, recommends that you make your reservations as early as possible.

You will receive a confirmation number and a link to register online. Onsite registrants are welcome if space is available. Availability of course materials cannot be guaranteed for on-site registrants.

Thank you for making your SuperShuttle reservation by calling 800/258-3826. Taxi service is also available from both airports.

The final assessment portion of the course is approved to provide 24 MOC Part 2 points by the American Board of Pediatrics through the AAP MOC Portfolio Program.

Recognize the importance of self-care and collaboration when caring for children, youth and their families
> Promote healing and resilience of children, youth and their families who have been exposed to trauma
> Recognize the determinates of well-care and collaboration when doing so, for youth, and adult, and their families who have been exposed to trauma
