SPECIAL NEEDS

The AAP is sensitive to the special needs of its attendees. Please indicate any special needs on your registration form (e.g. breastfeeding accommodations, dietary restrictions/allergies, physical disabilities).
Special group rates beginning at $219 per night, plus tax, for single or double occupancy, have been negotiated at the Hyatt Regency San Antonio. These rates represent substantial savings from published rates. The cutoff date for reservations at the group rate is October 31, 2018. Call the hotel directly to make your reservations.

A limited number of guest rooms have been reserved, and they are assigned based on availability (first-come, first-served). Please be aware that the room block may be filled prior to October 31, 2018; in such a case, neither the group rate nor guest room availability can be guaranteed. The AAP, therefore, recommends that you make your reservations as early as possible.

**Ground Transportation**
The hotel is approximately 10 miles from the San Antonio International Airport (SAT). The hotel does not offer shuttle service to/from the airport, however, SuperShuttle is available. Visit https://www.supershuttle.com/locations/sanantoniosat/ to book your transportation.

Taxi service to/from the airport is also available.

All individuals in a position to influence and/or control the content of AAP CME activities are required to disclose to the AAP and subsequently to learners that they either have no relevant financial relationships or any financial relationships with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services discussed in CME activities. All potential conflicts of interest are identified and resolved prior to an individual’s confirmation of service at an AAP CME activity. Beyond disclosure of financial relationships, AAP CME faculty are required to disclose to the AAP and to learners when they plan to discuss or demonstrate pharmaceuticals and/or medical devices and/or medical or surgical procedures that involve “off-label” use of a device or pharmaceutical.

The AAP is committed to providing learners with commercially unbiased CME activities. The content of this CME activity does not necessarily reflect the views or policies of the AAP.
